

Dear customers and partners,

The COVID-19 pandemic outbreak is a reality, never imagined by all of us. We are seeing the whole world fighting day by day against the virus. But, we are also seeing people's creativity and solidarity to go through these difficult times.

We do not know what the next weeks, months, will be like, we only know that we will be here, working to make the economy's wheel spin running, so that your cargo arrives and departs in the best way, and the products we need in hospitals, supermarkets, pharmacies drugstores and etc. will continue to be delivered.

We want to say again: count on us! Our entire team remains at your disposal, in the Terminal or in home office, to serve you in the best way.

We continue to handle containers and renew our hope that all these times will soon pass.

Our best wishes to you, your family, your employees and friends.

Best Regards,
Portonave S/A - Terminais Portuários de Navegantes
