P.S. 1: Service available only with prior operational feasibility analysis.  P.S. 2: Empty container delivery under customer's responsibility.  P.S. 3: For the delivery of the empty container, via gate out, it will be necessary to carry out the services described in items 2.1 and 2.3.</p>	<p><b>BRL 2.026,00</b></p>
--	----------------------------

12	General Remarks
	<p><b>12.1.</b> The information for cargo deadlines and the expected time of berthing of the vessels are under the shipping lines responsibility.</p>
	<p><b>12.2.</b> The costs of any activity prior or subsequently to the cargo storage in Portonave’s premises shall be the sole responsibility of the customer.</p>
	<p><b>12.3.</b> Included in the prices established in this list are the prices of the respective taxes on services, in the proportions and formulas of legal calculations.</p>
	<p><b>12.4.</b> In those cases that a container are linked to the DTC – Container Transit Declaration, the services will be charged according to the values described at this table of prices and services and the invoices will be issued to the secondary bonded Terminal which the container will be destined. For the composition of the Customs value that will be the calculation basis for the storage charge, will be considered the invoices value + collect fees present at BL. The conversion of the Customs value to DTC charges will be carried out according to the exchange rate of the date of discharge of the unit in the Terminal, available on Brazilian Central Bank’s website, at the link: <a href="http://www4.bcb.gov.br/pec/taxas/port/ptaxnpsq.asp?id=txcotacao">http://www4.bcb.gov.br/pec/taxas/port/ptaxnpsq.asp?id=txcotacao</a>. If the discharge of the unit occurs on weekends or holidays, it is considered the “PTAX venda” of the previous working day to discharge.</p>
	<p><b>12.5.</b> In order to comply with Ordinance n. 100/2018, of the Brazilian Customs in the Port of Itajaí, DTA (Customs Transit Declaration) containers that are out of jurisdiction, where the Customs requires scanning of containers, the services described in item 2.8.1 of this list will be applied.</p>
	<p><b>12.6.</b> Portonave discloses the criteria for rendering services term, which disciplines the general conditions for using the Terminal services. This term is available <a href="https://www.portonave.com.br/en/services/criteria-for-rendering-services/">https://www.portonave.com.br/en/services/criteria-for-rendering-services/</a>.</p>
	<p><b>12.7.</b> Any situation not covered in this list will be subject to analysis and negotiation between the directly involved parties.</p>
	<p><b>12.8.</b> Any missing, damage and/or claims found after leaving the Terminal should be reported prior to opening the container, so that a joint inspection can be carried out.</p>
	<p><b>12.9.</b> In order to comply with Ordinance n. 100/2018, of the Brazilian Customs in the Port of Itajaí, Isotank containers must pass through the Brazilian Customs scanner. This service will be performed in accordance with the scanner’s operating hours. Item 2.8.1 of this list will be applied as well as other executed services.</p>
	<p><b>12.10.</b> In the case of an import operation, with cargo clearance, turns into an export operation (including the situation where the import container discharges at the Terminal, the cargo is cleared without leaving the Terminal and, subsequently, the container/cargo is destined for export), the storage values will be charged over the CIF value, according to the item 1.1, until the date of request of the yard transfer, also, the item 2.12 will be charged. After that date, the value to be considered for storage will be according to item 1.2 until the date of loading of the container on the vessel (exclusively in this case, there is no free time period), including other</p>

services in which the charge will be done according to the amounts foreseen in this list, and should be considered the payment at sight of the expense generated. In those cases where the container was not cleared, it will be applied the minimum charge of item 1.1. (counting as from the date of discharge until the date of loading, including other required services).

**12.11.** For the removal of import units and delivery of export units, Portonave's online system (Customer Portal) shall be used to schedule appointments, through the website [www.portonave.com.br](http://www.portonave.com.br).

**12.12.** Regarding the physical inspection of goods (dry and reefer) and unaccompanied baggage (moving), depending on the verified content, once is noticed the impossibility to render the service due to technical/operational unfeasibility, Portonave will notify the requester.

**12.13.** For exceptional cases where the storage of cargoes as breakbulks is required, an additional of 100% will be applied to the storage services established in this prices and services table.

**12.14** With an exception for previously negotiated terms, the service of unstuffing + stuffing will be performed exclusively to attend the demands of Brazilian Authorities (MAPA, ANVISA, Brazilian Customs, Brazilian Army, Federal Police, IBAMA, INMETRO, etc.).

**12.15.** Requests for services must be carried out according to the procedures available on the website [www.portonave.com.br](http://www.portonave.com.br).

**12.16.** Portonave does not provide LCL cargo unstuffing services.

**12.17.** In those cases where the cargo is under "Container Transit Declaration" reschedules are free of charges, only if requested in advance.

**12.18.** To comply with safety standards towards handling of dangerous goods, the Terminal will apply the IMDG adhesive in all units that are discharged without identification (based on the information supplied by the shipping line in Siscomex Carga). The price will be charged according to item 2.7..

**12.19.** The Container Positioning service for emergency repair foreseen in item 2.18 shall not be performed for hot work (weld), as well as for cargoes classified as dangerous, considering the handling complexity for these cases.

**12.20.** For the composition of the Customs value that will be the calculation basis for storage charge, it will be considered the invoices value + collect fees present at the BL. The conversion of the Customs value to DTA charges will be carried out according to the exchange rate of the date of discharge/loading of the container in the Terminal, available on Brazilian Central Bank's website, at the link: <http://www4.bcb.gov.br/pec/taxas/port/ptaxnpsq.asp?id=txcotacao> . If the discharge of the container occurs on weekends or holidays, it will considered the PTAX of the previous working day of the container discharge.

**12.21.** Considering the item 1.2 (Export) of this table, Gate's opening period may be adjusted, at Portonave's discretion, due to its operational availability.

**12.22.** The values owed to Portonave due to abandonment, loss or destruction of goods will be charged to the respective owners, in accordance with the information entered into the Siscomex Carga system and documents delivered by e-mail. The values will be informed by a request made to the Commercial Department.

**12.23.** The service provided in accordance with Art. 6º, I Ordinance ALF-ITJ nº 100/2018, all export cargoes to be discharged in the ports of Europe and Africa (final destination or transshipment) must be scanned, immediately after its entrance in the Terminal, according Art. 7º, I "a" of Ordinance, or at transshipment, immediately after discharge, according Art. 7º, III, "a" of the same Ordinance. In cases that the scanning process will be at other occasion not mentioned in this clause or Brazilian Customs decides to suspend this requirement, the charge will be according to item 2.8.1 of this list.

**PORTONAVE**

- 12.24.** The price charged for the “Storage” service, in item 1 of this table, corresponds to the remuneration (i) for the use of the physical space of the Terminal Portonave, as well as (ii) for the custodian of cargo received in the premises of the enclosure, given the status of depositary assumed by the Terminal in the act of Customs’ bonding (article 13, item IV, of Decree No. 6.759 / 2009 and article 628 of Law No. 10.406 / 2002 – Civil Code).
- 12.25.** In the import activity the payment method is at sight and in the export operations the customers have a payment condition of 7 days, except if there is a cancellation of the shipment and gate out of the container from the Terminal, in which case the payment must be made at sight.
- 12.26.** Hazardous Cargoes (IMDG) – An additional of 150% shall be applied to all values set forth in this table for cargo classified as hazardous. Procedure available at the link below:  
<https://www.portonave.com.br/en/procedure/procedure-for-hazardous-cargo-handling/>
- 12.27.** OOG cargo – An additional of 100% shall be applied to all values set forth in this table for open top or flat rack containers with over dimensions. If the items 12.26 and 12.27 occur at the same time in the same container, the percentage of 150% (IMDG) and 100% (OOG) will be charged cumulatively.
- 12.28.** For the execution of cargo transshipment from the origin container to the rented/yielded container, all expenses related to the origin container must be already paid prior to the execution of the cargo transshipment.
- 12.29.** For cargo discharged under the AEO/OIC modality, charges will consider items 1.1, 2.1 or 2.2 (and the item 2.3. Items 12.26 and 12.27 must also be considered for these charges, in applicable cases.
- 12.30.** The prices and services are valid for an indefinite period, and may be adjusted with prior notice of 30 (thirty) days.
- 12.31.** This table of prices and services will be applied from January 1<sup>st</sup>, 2021 to all customers – considering for import cargoes the date of request for billing and for export the date of shipment - being the basis of calculation for the services that, at the date of billing, do not have an individual agreement with Portonave S/A – Port Terminals of Navegantes.
